

2021 EMEA, Asia, and LATAM Service Training

Spacelabs provides Certified Technical Training for in-house biomedical engineers, featuring in-depth courses using live systems that address real-world system maintenance. With structured and flexible options, we offer training courses at three key levels to support your in-house service requirements.

- LEVEL 1** Product Operation: Identifying and rectifying user error & accessory/consumable failures.
- LEVEL 2** Preventative Maintenance: Preventative & Basic Corrective Maintenance.
- LEVEL 3** Corrective Maintenance: Advanced Corrective Maintenance.
