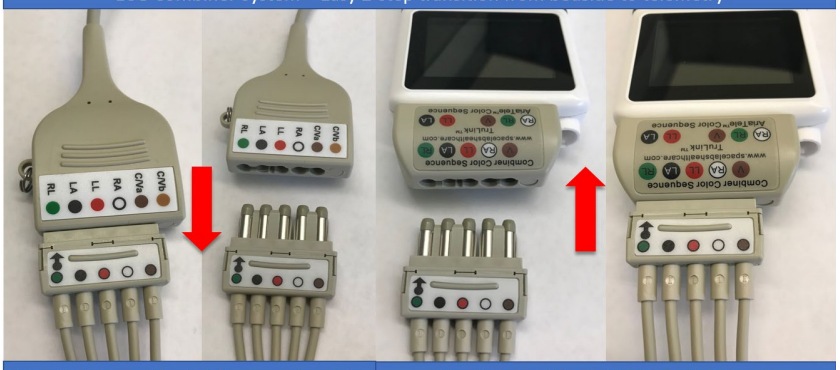
AAMI COLOR CODING

ECG Combiner Lead Wires & Cables

ECG COMBINER LEAD WIRE SYSTEM
AAMI Color Coded

Our ECG Combiner System of lead wires, cables and adapters allows you to standardize ECG supplies across monitoring brands. The system features a universal connection between cables and lead wires which allows a quick connect/disconnect between monitors and telemetry, and single patient multiple use lead wire options. System is validated for use with Spacelabs command modules 90496/91496 and Aria/Ultraview Telemetry.

ECG Combiner System – Easy 2-step transition from bedside to telemetry



Step 1: disconnect leadset from monitor cable | Step 2: connect leadset to telemetry adapter

Note: leadset and adapter are keyed and color-coded to help prevent misconnections

ECG Combiner Lead Wire Sets - requires ECG Combiner Cable or Adapter

	Order Code	Description		Length	Qty
	Disposable, DIN Shielded, Pinch, AAMI				
	700-0006-50	3-Lead	Pinch	127cm /50 in	25 Sets

ECG Lead Wire & Cables - Shielded

TruLink ECG lead wires are designed and validated for use with Spacelabs monitoring systems. Ten foot reusable monitor cables are available in 3, 5, or 10 lead configurations. The reusable shielded TruLink lead wires feature individual color-coded leads with a 2-prong connection into the monitor cable. They are available in a variety of lengths with either a snap or pinch electrode interface. For use with Spacelabs command modules 90496/91496.
