

Capnography & Multigas

NomoLine Sampling Lines

Masimo NomoLine technology eliminates common problems associated with conventional sidestream gas analysis. Designed for low-flow applications, NomoLine sampling lines can be used in a variety of clinical scenarios on both intubated and non-intubated adult, pediatric, infant, and neonatal patients, in both low- and high-humidity configurations. These are designed for use with Spacelabs Capnography and Multi-Gas Modules 92516, 92517 and 92518.

Order Code Description Length/Size Qty

NomoLine LH (Low Humidity) Single Patient Use Sampling Lines - Non-Intubated Patients

Capnography & Multigas

Spacelabs carries a variety of TruLink and brand name capnography supplies that have been validated for use with Spacelabs modules. For Sidestream and Mainstream monitoring, we offer a variety of low-cost but high-function adapters, cannula, sampling lines, sensors, and airway T-adapters.

| Order Code | Description | Length/Size | Qty |
|------------|-------------|-------------|-----|
|------------|-------------|-------------|-----|

Sidestream Monitoring Supplies

Please note: the NomoLine multi-patient-use adapter has been discontinued. Without this adapter there is no means to connect the below sidestream supplies to our capnography modules. We do, however, make these supplies available for order for those customers who have remaining supply of the adapter, or use these for other applications.

CO2 Nasal Cannula w/O2 and luer

| | | | | |
