Pressure Infusors

Unifusor® Pressure Infusors

Unifusor Pressure Infusors are available in 3 Models: Unifusor Disposable, Unifusor II & Unifusor Plus Reusable. All models are available in 500, 1000 and 3,000 mL sizes. The Unifusors are 100% tested for leakage during the manufacturing process. Unifusor pressure Infusors include an IV pole loop, a fluid bag hood and a reinforced translucent sleeve which enables easy viewing of fluid type and level. This unit is designed for rapid IV infusion, invasive pressure monitoring and auto-transfusion procedures.

Unifusor II Disposable Pressure Infusor with Reusable Inflation System

Disposable Infusor - white Disposable bag with reusable inflation system

2803SGA-24	Unifusor II with aneroid gauge & stopcock valve	500mL	24/Box
2804SGA-24	Unifusor II with aneroid gauge & stopcock valve	1000mL	24/Box
2805SGA-10	Unifusor II with aneroid gauge & stopcock valve	3000mL	10/Box

2903SGA-24	Unifusor II with piston gauge & stopcock valve	500mL	24/Box
2904SGA-24	Unifusor II with piston gauge & stopcock valve	1000mL	24/Box

Unifusor® Pressure Infusors

Unifusor Pressure Infusors are available in 3 Models: Unifusor Disposable, Unifusor II & Unifusor Plus Reusable. All models are available in 500, 1000 and 3,000 mL sizes. The Unifusors are 100% tested for leakage during the manufacturing process. Unifusor pressure Infusors include an IV pole loop, a fluid bag hood and a reinforced translucent sleeve which enables easy viewing of fluid type and level. This unit is designed for rapid IV infusion, invasive pressure monitoring and auto-transfusion procedures.

ECG Lead Wire & Cables - Shielded

TruLink ECG lead wires are designed and validated for use with Spacelabs monitoring systems. Ten foot reusable monitor cables are available in 3, 5, or 10 lead configurations. The reusable shielded TruLink lead wires feature individual color-coded leads with a 2-prong connection into the monitor cable. They are available in a variety of lengths with either a snap or pinch electrode interface. For use with Spacelabs command modules 90496/91496.

Capnography & Multigas

NomoLine Sampling Lines

Masimo NomoLine technology eliminates common problems associated with conventional sidestream gas analysis. Designed for low-flow applications, NomoLine sampling lines can be used in a variety of clinical scenarios on both intubated and non-intubated adult, pediatric, infant, and neonatal patients, in both low- and high-humidity configurations. These are designed for use with Spacelabs Capnography and Multi-Gas Modules 92516, 92517 and 92518.

Order Code Description Length/Size Qty

Capnography & Multigas

Spacelabs carries a variety of TruLink and brand name capnography supplies that have been validated for use with Spacelabs modules. For Sidestream and Mainstream monitoring, we offer a variety of low-cost but high-function adapters, cannula, sampling lines, sensors, and airway T-adapters.

Order Code	Description	Length/Size	Qty
------------	-------------	-------------	-----

Sidestream Monitoring Supplies

Please note: the NomoLine multi-patient-use adapter has been discontinued. Without this adapter there is no means to connect the below sidestream supplies to our capnography modules. We do, however, make these supplies available for order for those customers who have remaining supply of the adapter, or use these for other applications.

Eclipse Mini and Eclipse Pro

Eclipse Pro is your versatile choice for screening, arrhythmia, pacemaker detection. A comfortable hook-up means your patient is more likely to be able to tolerate the recording for the desired length of time, and also avoid artifact and lead-off challenges. Eclipse Pro is available with 3, 4 or 10 lead options as well as a wearable patch. The Eclipse Mini is patch only.
